
searching for australian climbers

Hi

I have noticed a few aussies posting on this site and I am curious how many rec climbers we have. Where are you? What sort of trees do you like to climb? Are there any tci certified instructors in Aus? I am from Queensland and am finding Rec climbing is consuming passion.

Happy climbing

Hi Zion,

I just signed up to the forum this morning. I am new to tree climbing, but have been into rock climbing for a while with a friend of mine. We are looking to get into tree climbing... I have access to the gear from work - Vermeer and Arbor Warehouse... We are in Brisbane.. PM me if your keen to go for a climb sometime..

Ben.
