
professional climber(s) urgently needed in CA

Posted by mendo trees - 07/12/2006 04:23pm

I am looking for one or more experienced climbers to work with Peter Jenkins, Tim Kovar, and me next week (July 11-14) in Mendocino CA. We are preparing trees for future recreational tree climbing programs and events.

Climbers must be spurless (DRT) and available for two or more of the days (next Tues-Fri). We will be deadwooding and other work.

We will pay travel expenses + your standard daily rate.

This is a fun job for the right person(s) and a chance to learn more about recreational tree prep from the masters.

If you have any questions, please contact me by phone at 510/845-1865 (preferred) or email at drmlgerlach@aol.com.

Cheers, Michael (aka mendo trees)
