I can't think of a better reason to climb in the dark! Harv- how many trees can be set up for a night climb?

Now there's gotta be some voo doo magic around a lunar eclipse. Anyone got some info on this so we can bring out the correct articles of moon worship gone dark? A blood moon eh? Surely there is significance around this. Who has the scoop?

This is happening on the 28th - we all MIGHT still be at home - thou SOME of you MIGHT be in Colorado.

enjoy
