
Logging Out

Posted by nickfromwi - 09/20/2007 05:14pm

I notice i keep getting logged out. I'm sure the site is on a timer of some sort that logs me out if i don't use it for a few minutes or something along those lines.

Also, when using the Climber Finder, it logs me out when I try to contact one of the climbers on there.

Am I the only one experiencing this? Can it be changed?

I am the ONLY one that uses my computer both at work and at home. It's frustrating to consistently have to keep logging in.

That was the default timeout of 15 minutes. You should now have an hour of inactivity before being logged out.

Thanks!
Beth
