## Winter Climb

Yesterday I finally got to climb a Pine I've had my eye on for a few years. It sits on top of a ridge on the oposite side of a stream with a 65' wterfall. I took pictures of it a couple years ago when I was out hiking with my kids. The top looked nice and spread out and it looked like it would have a great view of the falls. Well it did, unobstructed and a view of the valley down stream. The best part was 2 weeks ago I was in ice climbing 2 other waterfalls in the area. Yesterday with a beautiful 48 degree day I was up in the pine taking pictures of the no longer frozen falls.
